33 through 18, and insert :

1 "property" means the following property: energy efficient appliances; energy
2 efficient heating or cooling systems; insulation material specifically designed to
3 reduce the heat gain or loss of a residential property; exterior windows; exterior
4 doors; and roofing materials or metal roofs with appropriate pigmented
5 coatings designed to reduce the heat gain. All qualifying residential energy
6 efficient property must meet or exceed the Energy Star program requirements.
7 All qualifying residential energy efficient property must be installed at the
8 Louisiana residence that is either owned and occupied or rented and occupied
9 by a qualified elderly person. The term shall not include wind energy systems
10 or solar energy systems provided for in R.S. 47:6030."
