

BY REPRESENTATIVE AUSTIN BADON

1 A CONCURRENT RESOLUTION

2 To provide for legislative approval of the formula to determine the cost of a minimum

3 foundation program of education in all public elementary and secondary schools as

4 well as to equitably allocate the funds to city, parish, and other local public school

5 systems as developed by the State Board of Elementary and Secondary Education

6 and adopted by the board on February 17, 2011.

7 WHEREAS, Article VIII, Section 13(B) of the Constitution of Louisiana

8 requires the State Board of Elementary and Secondary Education to develop and

9 adopt annually a formula which shall be used to determine the cost of a minimum

10 foundation program of education in all public elementary and secondary schools as

11 well as to allocate equitably the funds to parish and city school systems; and

12 WHEREAS, at a special meeting of the State Board of Elementary and

13 Secondary Education on February 17, 2011, the board adopted a formula for such

14 cost determination and the equitable allocation of funds; and

15 WHEREAS, the board has indicated that the adopted formula considers all

16 statutory and board policy requirements necessary to achieve an appropriate cost

17 determination for a minimum education program as well as to distribute equitably

18 the cost; and

19 WHEREAS, the following goals are recommended for the minimum

20 foundation program:

1 **GOAL 1 - - EQUITY:** The school finance system in Louisiana provides
2 equal treatment of pupils with similar needs with the requirement that local school
3 systems have a tax burden sufficient to support Level 1.

4 **GOAL 2 - - ADEQUACY:** The school finance system in Louisiana provides
5 programs and learning opportunities that are sufficient for providing a minimum
6 educational program for every individual. The State Board of Elementary and
7 Secondary Education and the legislature through the adoption of the minimum
8 foundation program formula establish a minimum program.

9 **GOAL 3 - - LOCAL CHOICE:** The school finance system in Louisiana
10 provides that local taxpayers and the school board establish the budget and set the
11 tax levy for operating the schools above a set level of support for the minimum
12 program.

13 **GOAL 4 - - EVALUATION OF THE STATE SCHOOL FINANCE**
14 **SYSTEM:** The school finance system in Louisiana ensures the attainment of the
15 goals of equity, adequacy, and local choice. Whereas the school finance system
16 utilizes significant state general fund revenues, it is important that the system be
17 evaluated on a systematic basis annually.

18 **GOAL 5 - - PERFORMANCE MEASURES:** The school finance system
19 in Louisiana provides for financial accountability and program efficiency
20 maximizing student achievement. Accountability means that city, parish, and other
21 local public school districts can demonstrate that they are operating in conformance
22 with state statutes, financial accounting standards, and student performance
23 standards.

24 WHEREAS, to properly measure the achievement of the goals, a
25 comprehensive management information system containing state-level and
26 district-level components shall continue to be developed; and

27 WHEREAS, to provide fiscal and programmatic accountability, a fiscal
28 accountability program and a school and district accountability program shall
29 continue to be developed; and

1 WHEREAS, the fiscal accountability program shall verify data used in
2 allocating minimum foundation program funds and report fiscal information on the
3 effectiveness of the manner in which the funds are used at the local school system
4 level; and

5 WHEREAS, the school and district accountability program in establishing
6 the state goals for schools and students creates an easy way to communicate to
7 schools and the public how well a school is performing, recognizes schools for
8 effectively demonstrating growth in student achievement, and focuses attention,
9 energy, and resources on schools needing help in improving student achievement;
10 and

11 WHEREAS, the Constitution of Louisiana requires the legislature to fully
12 fund the current cost to the state of the minimum foundation program as determined
13 by applying the legislatively approved formula; and

14 WHEREAS, this minimum foundation program formula is designed to
15 provide greater equity and adequacy in both state and local funding of local school
16 systems; and

17 WHEREAS, the Constitution of Louisiana requires the appropriated funds
18 to be allocated equitably to parish and city school systems according to the formula
19 as adopted by the State Board of Elementary and Secondary Education and approved
20 by the legislature prior to making the appropriation.

21 THEREFORE, BE IT RESOLVED by the Legislature of Louisiana, that the
22 formula to determine the cost of a minimum foundation program of education in all
23 public elementary and secondary schools as well as to allocate equitably the funds
24 to city, parish, and other local public school systems developed by the State Board
25 of Elementary and Secondary Education and adopted by the Board on February 17,
26 2011, is hereby approved to read as follows:

1 MINIMUM FOUNDATION PROGRAM

2 ELEMENTARY AND SECONDARY EDUCATION

3 COST DISTRIBUTION FORMULA

4 2011 - 2012 SCHOOL YEAR

5 **I. BASIS OF ALLOCATION**6 **A. Preliminary and Final Allocations**

7 1. BESE shall determine preliminary allocations of the minimum foundation
8 program formula for city, parish, and other local public school systems, Recovery
9 School District schools, LSU and Southern Lab schools, Office of Juvenile Justice
10 schools, Louisiana School for Math, Science, and the Arts (LSMSA), New Orleans
11 Center for Creative Arts (NOCCA), and Legacy Type 2 Charter schools using latest
12 available data, no later than March 15 each year for the upcoming fiscal year. Upon
13 adoption by the board of such preliminary allocations for the ensuing fiscal year, the
14 superintendent shall submit the budget requirements in accordance with R.S. 39:33
15 and shall submit the minimum foundation program funding requirements to the Joint
16 Legislative Committee on the Budget and to the House and Senate committees on
17 education.

18 2. Upon final adoption by BESE and the legislature of the minimum
19 foundation program formula resolution in effect for the upcoming fiscal year, BESE
20 shall determine final allocations of the minimum foundation program formula for
21 city, parish, and other local public school systems, the Recovery School District,
22 LSU and Southern Lab schools, Office of Juvenile Justice schools, Louisiana School
23 for Math, Science, and the Arts (LSMSA), New Orleans School for the Creative Arts
24 (NOCCA), and Legacy Type 2 Charter schools using latest available data, no later
25 than June 30 for the fiscal year beginning July 1.

26 3. Latest available student count estimates will be utilized for newly opened
27 school districts or local education agencies in the final allocations of the minimum
28 foundation program formula no later than June 30 for the fiscal year beginning July
29 1.

30 **B. Mid-year Adjustments**

1 1. Districts and schools may request that the state superintendent make
2 estimated monthly payments based on documented mid-year growth prior to the
3 October 1 count.

4 2. If any city, parish, or other local public school system's, Recovery School
5 District schools', LSU and Southern Lab schools', Office of Juvenile Justice schools',
6 Louisiana School for Math, Science, and the Arts (LSMSA), New Orleans School
7 for the Creative Arts (NOCCA), and Legacy Type 2 Charter schools' current year
8 October 1 student count is more or less than the previous year's February 1
9 membership, a mid-year adjustment to per pupil funding shall be made for each
10 student gained or lost based on the final MFP allocation per pupil amount for that
11 city, parish, or other local public school system as approved by BESE.

12 3. Districts and schools may request that the state superintendent make
13 estimated monthly payments based on documented mid-year growth prior to the
14 February 1 count.

15 4. If any city, parish, or other local public school system's, Recovery School
16 District schools', LSU and Southern Lab schools', Office of Juvenile Justice schools',
17 Louisiana School for Math, Science, and the Arts (LSMSA), New Orleans School
18 for the Creative Arts (NOCCA), and Legacy Type 2 Charter schools' current year
19 February 1 membership is more or less than the current year October 1 membership,
20 a second mid-year adjustment to per pupil funding shall be made for each student
21 gained or lost based on one-half the final MFP allocation per pupil amount for that
22 city, parish, or other local public school system as approved by BESE.

23 5. If the Recovery School District, the district of prior jurisdiction, and local
24 education agencies have an increase or decrease in current year October 1
25 membership from the prior year February 1 membership included in the final MFP
26 allocation individually, the Recovery School District, the district of prior jurisdiction,
27 and local education agencies shall receive individually a mid-year adjustment of
28 MFP funding based upon the increases or decreases in the October 1 membership
29 times the final MFP allocation per pupil for the district of prior jurisdiction. For
30 increases and decreases in the current year February 1 membership from the October

1 membership, the Recovery School District, the district of prior jurisdiction, and local
2 education agencies shall receive individually a mid-year adjustment based on the
3 increases and decreases in the February 1 membership times one-half of the final
4 MFP allocation per pupil for the district of prior jurisdiction.

5 6. If the Recovery School District's current year October 1 membership
6 count qualifies for a mid-year adjustment to state funds, a mid-year adjustment shall
7 also be made based on the local per pupil amount of the district of prior jurisdiction
8 times the number of students identified in the mid-year adjustment. For the current
9 year February 1 student count, an adjustment will be made using one-half the local
10 per pupil amount times the number of students identified in the mid-year adjustment.

11 7. For the newly opened school districts or local education agencies, in the
12 first year of operation, a special mid-year adjustment will be made to finalize their
13 minimum foundation program formula allocations using October 1 data. This special
14 mid-year adjustment will replace the October mid-year adjustment. The newly
15 opened school districts or local education agencies will qualify for the February 1
16 mid-year adjustment.

17 **II. LEVEL 1 - COST DETERMINATION AND EQUITABLE**

18 **DISTRIBUTION OF STATE AND LOCAL FUNDS**

19 **A. Base Foundation Level 1 State and Local Costs**

20 1. February 1 Membership (as defined by the State Board of Elementary and
21 Secondary Education) including Recovery School District students.

22 **Plus**

23 2. Add-on Students/Units

24 a. At-Risk Students weighted at 0.22.

25 At-Risk students are defined for purposes of allocating funds as those
26 students whose family income is at or below income eligibility guidelines or other
27 guidelines as provided by the State Board of Elementary and Secondary Education
28 and the number of students identified as English Language Learners that were not
29 included based on income eligibility guidelines times the weighted factor of 0.22.

1 The State Board of Elementary and Secondary Education shall seek to
2 increase the at-risk weight over seven years by an appropriate amount annually until
3 reaching a total at-risk weight of .40.

4 b. Career and Technical Education course units weighted at .06.

5 The number of combined fall and spring student units enrolled in secondary
6 career and technical education courses times the weighted factor of 0.06.

7 c. Special Education/Other Exceptionalities students weighted at 1.50.

8 The number of students identified as having Other Exceptionalities as
9 reported in the membership count as defined by the State Board of Elementary and
10 Secondary Education times the weighted factor of 1.50.

11 d. Special Education/Gifted and Talented students weighted at .60. The
12 number of students identified as Gifted and Talented as reported in the membership
13 count as defined by the State Board of Elementary and Secondary Education times
14 the weighted factor of 0.60.

15 e. Economy of Scale calculated as a curvilinear weight of .20 at 0 student
16 membership level down to zero at 7,500 student membership level. This weight will
17 vary depending on the size of the school system. There will be no benefit to school
18 systems with a membership of 7,500 or greater. The formula for this weight is:

19 (1) for each district with less than 7,500 students, subtract its membership
20 from 7,500;

21 (2) divide this difference by 37,500 to calculate each district's economy of
22 scale weight; then

23 (3) multiply each district's economy of scale weight times their membership
24 count.

25 **Equals**

26 3. Total Weighted Membership and/or Units (Sum of I.A.1 and I.A.2.a.
27 through e.)

28 **Times**

29 4. State and Local Base Per Pupil Amount of **\$3,855.**

1 In the event no provision for an annual increase has been provided and this
2 Resolution remains in effect in the Fiscal Year 2012-13 or thereafter, the State Board
3 of Elementary and Secondary Education shall annually adjust the state and local base
4 per pupil amount with approval by the Joint Legislative Committee on the Budget.
5 If the Joint Legislative Committee on the Budget does not approve the rate
6 established by the State Board of Elementary and Secondary Education, then an
7 annual growth adjustment of 2.75% shall automatically be applied to the state and
8 local base per pupil amount beginning in the Fiscal Year 2012-13.

9 **Equals**

10 5. Total Base Foundation Level 1 State and Local Costs (I.A.3 times I.A.4.)

11 **B. Local School System Share Calculation**

12 1. Property Revenue Contribution is calculated by multiplying the state's
13 computed property tax rate (including debt service) by each school system's Net
14 Assessed Property Value for the latest available fiscal year including TIF areas. If
15 a district's Net Assessed Property Value has increased equal to or greater than 10%
16 over the prior year Net Assessed Property Value, then the growth in the Net
17 Assessed Property Value will be capped at 10%. This cap will be applied on a
18 year-to-year basis comparing the current year Net Assessed Property Value to the
19 prior year uncapped Net Assessed Property Value. In FY 2007-08, this millage was
20 set at a level appropriate to yield a state average share of 65% and a local average
21 share of 35%. The millage set in FY 2007-08 will remain the same in FY 2008-09
22 and beyond except that the State Board of Elementary and Secondary Education may
23 revise the millage as deemed appropriate in order to reestablish the 65%/35% share.

24 2. Sales Revenue Contribution is calculated by dividing the district's actual
25 sales tax revenue collected (including debt service) in the latest available fiscal year
26 by the district's sales tax rate that was applicable to create a sales tax base. If a local
27 school system's sales tax goes into effect during the fiscal year, the tax rate is
28 prorated to an annual rate applicable for the total revenue generated. If a district's
29 Computed Sales Tax Base increased equal to or greater than 15% over the Computed
30 Sales Tax Base calculated in the prior year formula, then the growth in the Computed

1 Sales Tax Base will be capped at 15% over the amount used in the prior year
2 formula. This cap will be applied on a year-to-year basis comparing the current year
3 sales tax base to the prior year uncapped sales tax base. Each district's sales tax base
4 is then multiplied by the state's projected yield of the sales tax rate. In FY 2007-08,
5 this rate was set at a level appropriate to yield a state average share of 65% and a
6 local average share of 35%. The rate set in FY 2007-08 will remain the same in FY
7 2008-09 and beyond except that the State Board of Elementary and Secondary
8 Education may revise the rate as deemed appropriate in order to reestablish the
9 65%/35% share.

10 3. Other Revenue Contribution is calculated by combining (1) State Revenue
11 in lieu of taxes; (2) Federal Revenue in lieu of taxes; and (3) 50% of Earnings on
12 Property.

13 4. Local School System Share is the sum of adding Item 1- Property Tax
14 Contribution, Item 2 - Sales Tax Contribution, and Item 3 - Other Revenues
15 Contribution.

16 **C. State Share Calculation**

17 The State Share is calculated by subtracting the Local Share from the Total
18 Level 1 Costs. In no event shall the State Share of the Total Level 1 Costs be less
19 than 25% for any district.

20 **III. LEVEL 2 - INCENTIVE FOR LOCAL EFFORT**

21 **A. Level 2 Eligible Local Revenue**

22 1. Local Revenue.

23 Prior year revenues collected for educational purposes from total Sales Tax,
24 total Property Tax, State and Federal Revenue in Lieu of Taxes, and 50% of Earnings
25 on Property

26 **Minus**

27 3. Local School System Share Contribution of Level 1 Costs

28 **Equals**

29 4. Local Revenue over Local School System Share Contribution of Level 1
30 Costs. This is the funding available for consideration in Level 2 incentive funding.

5. Limit on Revenue Eligible for Level 2.

The maximum local revenue eligible for incentive funding is equal to 34% of Total Base Foundation Level 1 State and Local Costs (I.A.5 times .34).

6. Eligible Local Revenue collected for educational purposes. The Lesser of:

a. Local Revenue Over Level 1 Local Share (II.A.4.),

or

b. Limit on Revenue Eligible for Level 2 Incentive Funding (II.A.5)

B. State Support of Level 2 Local Effort

1. State Support of Level 2 equals Eligible Revenue in Level 2 minus the Local Share of Level 2.

2. Local Share of Level 2 revenue equals the district's Eligible Local Revenue in Level 2 times the district's local share percentage of Level 1 times a factor of 1.72 in FY 2007-08. For FY 2008-09 and beyond, this factor will remain in effect. The State Board of Elementary and Secondary Education may calculate this factor on an annual basis.

Equals

3. State Support of Level 2 Incentive for Local Effort

IV. MINIMUM FOUNDATION PROGRAM LEVEL 3 LEGISLATIVE ENHANCEMENTS

A. Continuation Funding for Pay Raises

1. 2001-02 Certificated Personnel Pay Raise Continuation Enhancement

The supplemental funding provided for the 2001-02 certificated pay raise will continue for each district based on the prior year per pupil amount times their current year membership.

2. 2006-07 Certificated Personnel Pay Raise Continuation Enhancement

The supplemental funding provided for the 2006-07 certificated pay raise will continue for each district based on the prior year per pupil amount times their current year membership.

3. 2002-03 Support Worker Pay Raise Continuation Enhancement

1 The supplemental pay raise allocation for noncertificated support workers
2 provided in FY 2002-03 will continue for each district based on the prior year per
3 pupil amount times the current year membership.

4 **4. 2006-07 Support Worker Pay Raise Continuation Enhancement**

5 The supplemental pay raise allocation for noncertificated support workers
6 provided in FY 2006-07 will continue for each district based on the prior year per
7 pupil amount times the current year membership.

8 **5. 2007-08 Certificated Personnel Pay Raise Continuation Enhancement**

9 The supplemental funding provided for the 2007-08 certificated pay raise will
10 continue for each district or school based on the prior year per pupil amount times
11 their current year membership.

12 **6. 2007-08 Support Worker Pay Raise Continuation Enhancement**

13 The supplemental pay raise allocation for noncertificated support workers
14 provided in FY 2007-08 will continue for each district or school based on the prior
15 year per pupil amount times the current year membership.

16 **7. 2008-09 Certificated Personnel Pay Raise Continuation Enhancement**

17 The supplemental funding provided for the 2008-09 certificated pay raise will
18 continue for each district or school based on the prior year per pupil amount times
19 their current year membership.

20 **B. Foreign Language Associate Enhancement**

21 Any local school system employing a Foreign Language Associate shall
22 receive a supplemental allocation from BESE of \$20,000 per teacher not to exceed
23 a total of 300 teachers in the program.

24 **C. Hold Harmless Enhancement**

25 The concept for the present formula was first enacted in Fiscal Year 1992-93.
26 At that time, there were school systems that were "underfunded" by the state and
27 those that were "overfunded" by the state. In Fiscal Year 1999-2000, this MFP
28 formula concept was fully implemented for the first time with 52 systems funded at
29 the appropriate state level, eliminating the "underfunded" situation. School systems
30 identified as "overfunded" in FY 2000-01 have since received their prior year per

pupil Hold Harmless amount times their current year membership not to exceed the total Hold Harmless amount received in the prior year. Beginning in FY 2007-08, the Hold Harmless amount as identified in the FY 2006-07 formula provided to these "overfunded" systems will be phased out. After subtracting amounts attributable to insurance supplements and legislative pay raises provided between FY 1993-94 and FY 1998-99 from the FY 2006-07 Hold Harmless amount, a revised Hold Harmless amount will be calculated. Each of the school districts identified as "overfunded" in FY 2006-07 will receive a reduction in FY 2007-08 equivalent to 10% of their total revised "overfunded" amount. The annual 10% reduction will continue each year for 10 years. On an annual basis, any hold harmless district may choose to reduce the remaining balance by an amount greater than 10% through formal notification to the department. This request must take place no later than June 30th each year. The annual 10% reduction amount will be redistributed in a per pupil amount to all non-hold harmless districts.

D. Support for Increasing Mandated Costs in Health Insurance, Retirement, and Fuel

City, parish, and other local public school systems shall receive a minimum of \$100.00 for each student in the prior year February 1 membership.

V. FUNDING FOR RECOVERY SCHOOL DISTRICT

A. MFP State Share Per Student

1. The student membership and weighted student counts of schools transferred to the Recovery School District shall continue to be included in the membership and weighted student counts of the city, parish, or other local public school board from which jurisdiction of the school was transferred.

2. Once all final MFP calculations have been made, the MFP state share per prior year February 1 student membership from Levels 1, 2, and 3 of the MFP formula for the city, parish, or other local public school board which counted the Recovery School District students, shall be multiplied by the number of students in the Recovery School District and converted to a monthly amount. The monthly

1 amount(s) shall be reduced from the city, parish, or other local public school board
2 MFP monthly allocation and transferred to the Recovery School District.

3 **B. MFP Local Share Per Student**

4 1. In addition to the appropriation required in VA.2. of this section, the
5 Recovery School District shall receive an applicable local revenue per student
6 allocation.

7 2. To begin the fiscal year July 1, the local revenue per student allocation is
8 based on projected local revenues for the most recent prior fiscal year from the
9 city, parish, or other local public school board that had jurisdiction of the school
10 prior to its transfer divided by the total MFP student membership in the Recovery
11 School District and in the district of prior jurisdiction used in the MFP final
12 allocation.

13 3. For purposes of the Recovery School District calculation, local revenue
14 is defined to include revenue from the following sources, excluding any portion
15 which has been specifically dedicated by the legislature or by voter approval to
16 capital outlay or debt service, per the definitions in the Annual Financial Report and
17 the Louisiana Accounting and Uniform Governmental Handbook (LAUGH) as
18 reported to the Department of Education (DOE):

- 19 a. Sales and use taxes, less any tax collection fee paid by the school district.
20 b. Ad valorem taxes, less any tax collection fee paid by the school district.
21 c. Earnings from sixteenth section lands owned by the school district.

22 4. The total local revenue allocation for the Recovery District is determined
23 by multiplying the local revenue per student times the number of Recovery School
24 District students used in the MFP final allocation.

25 5. Once the local amount is determined, it is adjusted to a monthly amount
26 that is transferred from the MFP monthly allocation of the city, parish, or other local
27 public school board of prior jurisdiction to the Recovery School District.

28 6. Based on the October 1 student count, the local revenue allocation per
29 student will be recalculated and there will be a corresponding adjustment in the local

1 revenue allocation per student. No recalculation of the local revenue per student will
2 occur at the February 1 student count adjustment.

3 7. During the third quarter of the fiscal year, the local revenue allocation per
4 student shall be adjusted to reflect actual prior year local revenue data.

5 8. A final reconciliation will occur based upon the receipt of the annual
6 audited financial statements of the district of prior jurisdiction. If an increase or
7 decrease in local revenue collection exists, the state superintendent may establish a
8 payment schedule. In the event that the fiscal status of the district of prior
9 jurisdiction or the Recovery School District changes during the fiscal year or on or
10 before the final reconciliation, the state superintendent may adjust the local revenue
11 based on the revenues identifies.

12 C. Except for administrative costs, monies appropriated to the Recovery
13 School District that are attributable to the transfer of a school from a prior school
14 system and monies allocated or transferred from the prior system to the Recovery
15 School District shall be expended solely on the operation of schools transferred from
16 the prior system to the jurisdiction of the Recovery School District.

17 **VI. FUNDING FOR LOUISIANA STATE UNIVERSITY AND SOUTHERN**
18 **UNIVERSITY LABORATORY SCHOOLS**

19 A. Any elementary or secondary school operated by Louisiana State
20 University and Agricultural and Mechanical College or by Southern University and
21 Agricultural and Mechanical College shall be considered a public elementary or
22 secondary school and, as such, shall be annually appropriated funds as determined
23 by applying the formula contained in Subsection B of this Section.

24 B. Each student in membership, as defined by the State Board of Elementary
25 and Secondary Education, at the schools provided for in Subsection A of this Section
26 shall be provided for and funded from the minimum foundation program an amount
27 per student equal to the amount allocated per student for the state share of the
28 minimum foundation program.

29 C. The funds appropriated for the schools provided for in this Section shall
30 be allocated to the institution of higher education operating such a school. Each such

1 institution of higher education shall ensure the equitable expenditure of such funds
2 to operate such schools.

3 D. Fifty percent of increased funds provided are to be directed to certificated
4 staff pay raises as defined in Section XI. A. Provisions specified in Section X.
5 through XII. of this Resolution shall apply to these schools.

6 **VII. FUNDING FOR TYPE 2 CHARTER SCHOOLS**

7 A. Any school authorized as a Type 2 Charter School by the State Board of
8 Elementary and Secondary Education on or after July 1, 2008, shall annually be
9 appropriated funds as determined by applying the formula contained in R.S. 17:3995,
10 except that the local share allocation will be funded with a transfer of the MFP
11 monthly amount representing the local share allocation from the city, parish, or local
12 public school board in which the attending students reside, and except that Virtual
13 Charter schools may receive, as approved by the State Board of Elementary and
14 Secondary Education, a lesser percentage of the state and local amount calculated in
15 R.S. 17:3995. Where student attendance is from multiple school districts, the
16 Department of Education shall determine the local share based on students reported
17 by the schools. The student membership count of the Type 2 charter schools shall be
18 included in the membership count of the city, parish, or other local public school
19 board in which the school is located to determine the local share. Student
20 adjustments for Type 2 Charter schools authorized on or after July 1, 2008, shall
21 adhere to the guidelines established in Section I.(B) - Mid-year Adjustments. The
22 student membership and weighted student counts of any Type 2 Charter school
23 authorized by the State Board of Elementary and Secondary Education on or after
24 July 1, 2008, shall be included in the membership and weighted student counts of the
25 city, parish, or other local public school board in which the student resides using the
26 actual prior year February 1 enrollment data of the Type 2 Charter school. This shall
27 not apply in the first year of operation where estimated data only is available.

28 B. Any Legacy Type 2 Charter school approved by the State Board of
29 Elementary and Secondary Education prior to July 1, 2008, shall annually be
30 appropriated funds as determined by applying the formula contained in R.S. 17:3995,

1 except that any mid-year adjustments shall adhere to the guidelines established in
2 Section 1(B) – Mid-year Adjustments.

3 C. Fifty percent of increased funds provided are to be directed to certificated
4 staff pay raises as defined in Section XI.A. Provisions specified in Section X.
5 through XII. of this Resolution shall apply to these schools.

6 **VIII. FUNDING FOR THE OFFICE OF JUVENILE JUSTICE SCHOOLS AND**
7 **STUDENTS**

8 A. Any elementary and secondary school operated by the Office of Juvenile
9 Justice in a secure care facility shall be considered a public elementary or secondary
10 school and, as such, the Office of Juvenile Justice shall be annually appropriated
11 funds for these students as determined by applying the formula contained in
12 Subsections B and C of this Section.

13 B. Each student counted in the prior year average daily membership, as
14 defined by the State Board of Elementary and Secondary Education to be calculated
15 by dividing the number of days the students are under the guidance and direction of
16 teachers by the total instructional days during the specified school year, shall be
17 provided for and funded from the minimum foundation program a state share per
18 pupil equal to the amount allocated per student for the state share of the district
19 where the student resided prior to adjudication.

20 1. The state share per pupil allocation shall be adjusted based on a factor
21 determined by the Louisiana Department of Education to provide for the differential
22 in the number of educational days provided to the students in the custody of the
23 Office of Juvenile Justice.

24 2. Additionally, the state share per pupil allocation shall be adjusted based
25 on a factor determined by the Louisiana Department of Education to recognize the
26 increased number of special education students in the Office of Juvenile Justice
27 schools relative to the state average special education student population.

28 C. Each student counted in the prior year average daily membership, as
29 defined by the State Board of Elementary and Secondary Education, shall be
30 provided for and funded from the minimum foundation program a local contribution

per pupil equal to the local contribution per pupil for the district where the student resided prior to adjudication.

1. For the purpose of the local share allocation per pupil amount, the average daily membership of the Office of Juvenile Justice shall be included in the membership counts of the city, parish, or other local public school board in which the student resided prior to adjudication to the Office of Juvenile Justice.

2. For a district(s) that has schools transferred to the Recovery School District and shares local revenue, the allocation for the Office of Juvenile Justice will be completed before the calculation of local revenues as identified in Section VB.

3. The local share allocation shall be funded with a transfer of the MFP monthly amount representing the local share allocation from the city, parish, or other local public school board in which the attending students resided prior to adjudication to the Office of Juvenile Justice.

**IX. FUNDING FOR LOUISIANA SCHOOL FOR MATH, SCIENCE, AND THE
ARTS (LSMSA) AND NEW ORLEANS CENTER FOR CREATIVE ARTS
(NOCCA)**

A. LSMSA and NOCCA shall be considered a public elementary or secondary school, and as such, shall be annually appropriated funds as determined by applying the formula contained in Subsection B. of this Section.

B. Each LSMSA student in membership, and each NOCCA full-day student in membership, as defined by the State Board of Elementary and Secondary Education, shall be provided for and funded from the minimum foundation program an amount per student equal to the amount allocated per student for the state share of the minimum foundation program.

C. Fifty percent of increased funds provided are to be directed to certificated pay raises as defined by Section XI. A. Provisions specified in X. through XII. of this Resolution shall apply to these schools.

X. ADJUSTMENTS FOR AUDIT FINDINGS AND DATA REVISIONS

Review and/or audit of the districts' data used in determining their Minimum Foundation Program allocation may result in changes in final statistical information.

1 The Minimum Foundation Program allocation adjustments necessary as a result of
2 these audit findings will be made in the following school year.

3 **XI. REQUIRED EXPENDITURE AMOUNTS**

4 **A. Required Pay Raise for Certificated Personnel**

5 Fifty percent of a district's increased funds provided in Levels 1 and 2 over
6 the prior year after adjusting for increases in student membership shall be used only
7 to supplement and enhance full-time certificated staff salaries and retirement benefits
8 for city, parish, or other local school systems, Recovery School District, and LSU
9 and SU Lab schools with an average teacher salary below the latest published SREB
10 average teacher salary. This requirement will be suspended for city, parish, or other
11 local school systems, Recovery School Districts schools, LSU and SU Lab schools,
12 Office of Juvenile Justice schools, Louisiana School for Math, Science, and the Arts
13 (LSMSA), New Orleans Center for Creative Arts (NOCCA), and Legacy Type 2
14 Charter schools in any year in which no annual increase is provided in the state base
15 per pupil amount.

16 For purposes of determining the use of these funds, certificated personnel are
17 defined per state Department of Education Bulletin 1929 and are to include: teachers
18 (all function codes 1000-2200, object code 112); therapists/specialists/counselors
19 (function codes 1000- 2200, object code 113); school site-based principals, assistant
20 principals, and other school administrators (function code 1000-2200 and 2400,
21 object code 111); central office certificated administrators (function code 1000-2300
22 & 2831 (excluding 2321), object code 111); school nurses (function code 2134,
23 object code 118); and employees on sabbatical in function code 1000-2200, 2134,
24 and 2400.

25 **B. 70% Local General Fund Required Instructional Expenditure at the** 26 **School Building Level**

27 To provide for appropriate accountability of state funds while providing local
28 school board flexibility in determining specific expenditures, local school boards
29 must ensure that 70% of the local school system general fund expenditures are in the

1 areas of instruction and school administration at the school building level as derived
2 by the Department of Education.

3 1. The definition of instruction shall provide for:

4 a. The activities dealing directly with the interaction between teachers and
5 students to include such items as: teacher and teacher aide salaries, employee
6 benefits, purchased professional and technical services, textbooks and instructional
7 materials and supplies, and instructional equipment;

8 b. Student support activities designed to assess and improve the well-being
9 of students and to supplement the teaching process, including attendance and social
10 work, guidance, health, and psychological activities; and

11 c. Instructional support activities associated with assisting the instructional
12 staff with the content and process of providing learning experiences for students
13 including activities of improvement of instruction, instruction and curriculum
14 development, instructional staff training, library/media, and instructional related
15 technology.

16 2. School administration shall include the activities performed by the
17 principal, assistant principals, and other assistants while they supervise all operations
18 of the school, evaluate the staff members of the school, assign duties to staff
19 members, supervise and maintain the records of the school, and coordinate school
20 instructional activities with those of the school district. These activities also include
21 the work of clerical staff in support of the teaching and administrative duties.

22 3. For city, parish, and other local public school districts that fail this
23 requirement, but perform at or above the state average in the District Performance
24 Score (DPS), a waiver for this noncompliance should be provided.

25 4. For city, parish, and other local public school districts that fail this
26 requirement, and also perform below the state average in the District Performance
27 Score (DPS), the following consequences should be applied:

28 a. Require that city, parish, and other local public school districts assess
29 expenditures in non-instructional areas including a self-assessment and/or hiring an
30 independent firm to determine operational activities that could be streamlined

1 through outsourcing, privatization, or consolidation and provide a report to BESE on
2 the implementation plan to redirect any savings from these actions to instructional
3 activities according to timelines set by the Department of Education.

4 b. Require the city, parish, and other local public school districts to examine
5 the manner in which state and federal funds are utilized, make revisions to
6 incorporate new spending patterns, and provide a report to BESE on the
7 implementation of these actions according to timelines set by the Department of
8 Education.

9 **C. Expenditure Requirement for Foreign Language Associate Program**

10 The state must maintain support of the Foreign Language Associate program
11 at a maximum of 300 Foreign Language Associates employed in any given year.
12 These teachers shall be paid by the employing city, parish, or other local public
13 school system or school the state average classroom teacher salary (without PIP) by
14 years of experience and degree beginning with year three. First year teachers will
15 receive an installation incentive of an additional \$6,000; second and third year
16 teachers will receive a retention incentive of an additional \$4,000. These amounts
17 must be provided to each Foreign Associate Teacher by each school district or school
18 in which they are employed.

19 **D. Expenditure Requirement for Educational Purposes**

20 State MFP funds shall only be expended for educational purposes.
21 Expenditures for educational purposes are those expenditures related to the
22 operational and instructional activities of a district to include: instructional programs,
23 pupil support programs, instructional staff programs, school administration, general
24 administration, business services, operations and maintenance of plant services,
25 student transportation services, food services operations, enterprise operations,
26 community services operations, facility acquisition and construction services and
27 debt services as defined by Louisiana Accounting and Uniform Governmental
28 Handbook, Bulletin 1929.

29 **XII. ACCOUNTABILITY PROVISIONS**

30 **A. Accountability for School Performance**

Each school recognized by the Louisiana Department of Education will be included in a MFP Accountability report submitted to the House and Senate committees on education by June 30 of each year. Specific information to be included in the report is as follows:

a. School Data - School name, city, and district; Type of school; October 1 elementary/secondary enrollment; and grade span.

b. Accountability Data - scores and labels.

c. Fiscal Data - expenditures per elementary/secondary enrollment for classroom instruction (less adult education) and pupil/instructional support.

d. Student Demographic Data - percent of students eligible for free and/or reduced lunch ("at-risk"), students with exceptionalities (special ed), gifted/talented, and Minority; Advanced Placement data; student attendance rates; and pupil-teacher ratios.

e. Teacher Data - Average FTE teacher salaries (object 112, function 1000 series); percent of teachers certified; average years of experience; percent master's degree and above; percent turnover; percent Minority; and teachers' days absent. All teacher data (excluding salaries) reported for certified teachers.

f. Staffing Data - number per 1,000 pupils for certified teachers, uncertified teachers, and instructional aides.

B. Accountability for Weighted Student Funds

1. In FY 2010-11, according to R.S. 17:7(2)(f)(I), city, parish, and other local public school districts, Recovery School District schools, and LSU and Southern Lab schools, Louisiana School for Math, Science, and the Arts (LSMSA), New Orleans School for the Creative Arts (NOCCA), and Legacy Type 2 Charter schools will be required to expend funds generated by applying the weighted factors contained in the formula for At-Risk students, Career and Technical Education course units, Special Education Other Exceptionalities students, and Special Education Gifted and Talented students on the following: (a) personnel, (b) professional services, (c) instructional materials, (d) equipment, and (e) supplies that serve the unique needs of students who generate such funds.

2. The expenditure of these weighted funds must be submitted annually in a report as directed by the Louisiana Department of Education including the details on the types of activities for which these funds were expended to serve the needs of the weighted students at all schools that serve such students. The information contained in such annual report shall be published on the Department of Education website in an easily understandable format.

XIII. STUDY OF FUNDING FOR PUBLIC EDUCATION

In an effort to explore opportunities to increase student achievement, the State Board of Elementary and Secondary Education directs the Louisiana Department of Education to establish a pilot program for student-based budgeting.

DIGEST

The digest printed below was prepared by House Legislative Services. It constitutes no part of the legislative instrument. The keyword, one-liner, abstract, and digest do not constitute part of the law or proof or indicia of legislative intent. [R.S. 1:13(B) and 24:177(E)]

Austin Badon

HCR No. 130

Abstract: Provides legislative approval of the MFP formula for FY 11-12 adopted by BESE on February 17, 2011.

Provides for legislative approval of the formula for FY 11-12 to determine the cost of a minimum foundation program (MFP) of education in all public elementary and secondary schools as well as to equitably allocate the funds to local school systems (including the Recovery School District (RSD), two university laboratory schools, Office of Juvenile Justice schools, La. School for Math, Science, and the Arts, New Orleans Center for Creative Arts, and Legacy Type 2 Charter schools) as developed by the State Board of Elementary and Secondary Education (BESE) and adopted by the board on February 17, 2011.

Preliminary and Final Allocations

Proposed formula retains provisions of present formula relative to the computation of preliminary and final allocations, and additionally includes La. School for Math, Science and the Arts (LSMSA), New Orleans Center for Creative Arts (NOCCA), and Legacy Type 2 Charter schools in all relevant MFP computations, as follows:

1. BESE determines no later than March 15 each year for the upcoming fiscal year preliminary allocations of the MFP formula for city, parish, and other local public school systems (including the RSD, LSU and SU laboratory schools, OJJ, LSMSA, NOCCA, and Legacy Type 2 charter schools) using the latest available data. Upon adoption by BESE of such preliminary allocations for the ensuing fiscal year, the superintendent submits the MFP funding requirements to the Joint Legislative Committee on the Budget and to the House and Senate Committees on Education.
2. Upon legislative approval of the MFP formula resolution for the upcoming fiscal year, BESE determines final allocations for local school systems (including the RSD, LSU and SU laboratory schools, OJJ schools, LSMSA, NOCCA, and Legacy Type 2 charter schools), using latest available data, no later than June 30 for the fiscal year beginning July 1.

3. Latest available student count estimates will be used for newly opened school districts or local education agencies in the final allocations of the MFP formula no later than June 30 for the fiscal year beginning July 1.

Mid-Year Adjustments

Proposed formula adds LSMSA, NOCCA, and Legacy Type 2 schools in mid-year adjustment computations. Mid-year adjustments are calculated as follows.

1. If a school/school district's current year Oct. 1 student count is more or less than the previous year's Feb. 1 membership, a mid-year adjustment to per pupil funding shall be made for each student gained or lost based on the final MFP allocation.
2. If a school/school district's current Feb. 1 student count is more or less than the current year's Oct. 1 membership, a mid-year adjustment to per pupil funding shall be made for each student gained or lost based on one-half the final MFP allocation.
3. Districts and schools may request the state superintendent to make estimated monthly payments based on documented mid-year growth prior to the Oct. 1 count and prior to the Feb 1 count.
4. If the RSD, the district of prior jurisdiction, and local education agencies have an increase or decrease in current year Oct. 1 membership above the prior year Feb. 1 number included in the final MFP allocation individually, such entities shall receive a mid-year adjustment of MFP funding based upon the number of students identified above or below the membership number used in the final MFP allocation.
5. If the RSD Oct. 1 membership count qualifies for a mid-year adjustment to state funds, a mid-year adjustment to local per pupil funding also shall be made for each additional student gained or lost based on the local per pupil amount of the district of prior jurisdiction times the increased number of students. For Feb. 1 increases, one-half of the local per pupil amount will be transferred.
6. For newly opened school districts or local education agencies, in the first year of operation, a special mid-year adjustment will be made to finalize their MFP formula allocations using Oct. 1 data. This special mid-year adjustment will replace the Oct. mid-year adjustment. The newly opened school districts or local education agencies will qualify for the Feb. 1 mid-year adjustment.

Level 1—Cost Determination and Equitable Distribution of State and Local Funds:

Compared to present formula, proposed formula provides as follows:

1. Maintains use of Feb. 1 membership as defined by BESE.
2. Maintains the existing weight for add-on student units for at-risk students at 0.22. Retains the time period for BESE to seek to achieve the goal of an at-risk weight of 0.40 over a seven year period.
3. Maintains the existing weight for Career and Technical Education course units at 0.06.
4. Maintains the existing weight for Special Education/Other Exceptionalities students at 1.5.
5. Maintains the existing weight for Special Education/Gifted and Talented students at 0.60.
6. Maintains the Economy of Scale curvilinear weight of 0.20 for school systems with a student membership of less than 7,500.

7. Proposed formula retains base per pupil funding amount of \$3,855.
8. Retains provisions for subsequent annual adjustments as determined by BESE in base per pupil amount.
9. Relative to the local school system share calculation, provides as follows:
 - (a) Calculates property revenue contribution by multiplying the state's computed property tax rate (including debt service) by each school system's net assessed property value for the latest available fiscal year including Tax Increment Financing (TIF) areas. If a district's net assessed property value has increased equal to or greater than 10% over the prior year net assessed property value, then the growth in the net assessed property value will be capped at 10%. This cap will be applied on a year-to-year basis comparing the current year net assessed property value to the prior year uncapped net assessed property value. In FY 07-08, this millage was set at a level appropriate to yield a state average share of 65% and a local average share of 35%. The millage set in FY 07-08 will remain the same in FY 08-09 and beyond. BESE may revise the millage as deemed appropriate in order to reestablish the 65% to 35% share.
 - (b) Calculates sales revenue contribution by dividing the district's actual sales tax revenue collected (including debt service) in the latest available fiscal year by the district's sales tax rate that was applicable to create a sales tax base. If a local school system's sales tax goes into effect during the fiscal year, the tax rate is prorated to an annual rate applicable for the total revenue generated. If a district's computed sales tax base increased equal to or greater than 15% over the computed sales tax base calculated in the prior year formula, then the growth in the computed sales tax base will be capped at 15% over the amount used in the prior year formula. This cap will be applied on a year-to-year basis comparing the current year sales tax base to the prior year uncapped sales tax base. Each district's sales tax base is then multiplied by the state's projected yield of the sales tax rate. In FY 07-08, this rate was set at a level appropriate to yield a state average share of 65% and a local average share of 35%. The rate set in FY 07-08 will remain the same in FY 08-09 and beyond. BESE may revise the rate as deemed appropriate in order to reestablish the 65% to 35% share.
 - (c) Other revenue contribution is calculated by combining state revenue in lieu of taxes, federal revenue in lieu of taxes, and 50% of earnings on property.
10. Provides that the state share is calculated by subtracting the local share from the total level 1 costs.
11. Provides that in no event shall the state share of the total level 1 costs be less than 25% for any district.
12. Provides that the student membership and weighted student counts of any Type 2 Charter school authorized by BESE on or after July 1, 2008, shall be included in the membership and weighted student counts of the city, parish, or other local public school board in which the student resides using the actual prior year February 1 enrollment data of the Type 2 charter school. This provision shall not apply for schools in the first year of operation where only estimated data is available.

Level 2 - Incentive For Local Effort

1. Continues provision that the local share of Level 2 revenue equals the district's eligible local revenue as calculated in Level 2 times the district's local share percentage of Level 1 times a factor of 1.72.

2. Continues provision that the state support of Level 2 incentive funding equals eligible revenue in Level 2 minus the local share of Level 2.
3. Continues provision that the maximum local revenue eligible for incentive funding in Level 2 is 34% of Total Base Foundation Level 1 State and Local costs.

Level 3—Legislative Enhancements

1. Continues supplemental pay raises for certificated personnel initiated in 2001-02, 2006-07, 2007-08, and 2008-09 as a per pupil amount.
2. Continues supplemental pay raises for noncertificated support workers initiated in 2002-03, 2006-07, and 2007-08 as a per pupil amount.
3. Continues the supplemental allocation of \$20,000 per teacher from BESE to local school systems that employ a Foreign Language Associate, not to exceed a total of 300 teachers.
4. Continues the 10-year phase-out of hold harmless funding beginning with a 10% reduction of the revised "over funded" amount in FY 07-08. The annual 10% reduction amount will be redistributed in a per pupil amount to all non-hold harmless districts.
5. Continues providing local school systems with a per pupil funding amount of \$100 for increasing mandated costs involving health insurance, retirement, and fuel.

Funding for the Recovery School District

Provides for RSD local revenue calculations as follows:

1. The student membership and weighted student counts of schools transferred to the RSD shall be included in the membership and weighted counts of the jurisdiction from which the school was transferred.
2. To begin the fiscal year July 1, the basis of the local revenue share allocation for RSD is based on projected local revenues for the most recent prior year of the public school board that had prior jurisdiction divided by total MFP student membership in the RSD and in prior the district of prior jurisdiction.
3. Based on the Oct. 1 student count, the local revenue allocation per student will be recalculated and there will be a corresponding adjustment in the local revenue allocation per student. There will be no recalculation at the Feb. 1 student count adjustment.
4. During the third quarter of the fiscal year, the local revenue allocation per student shall be adjusted to reflect actual prior year revenue data.
5. A final reconciliation will occur based upon the receipt of the annual audited financial statements of the district of prior jurisdiction. If an increase or decrease in local revenue collections exists, the state superintendent may establish a payment schedule.
6. If the fiscal status of the district of prior jurisdiction or the RSD changes during the fiscal year on or before the final reconciliation, the state superintendent may adjust the local revenue allocation based upon the revenues identified.

Funding for LSU and SU Laboratory Schools

Provides funding for the LSU and SU university laboratory schools as follows:

1. Any elementary or secondary school operated by LSU or SU shall be considered a public school and annually appropriated funds as determined in the MFP formula.
2. Each student enrolled at LSU or SU lab schools shall be provided for and funded from the MFP a per pupil amount equal to the amount allocated per student for the state share of the MFP.
3. MFP funds appropriated to LSU and SU lab schools shall be allocated to the institution of higher education operating such schools which shall ensure the equitable expenditure of such funds to operate the schools.
4. Specifies that requirements in the formula relative to using 50% of increased funds for pay raises for certificated personnel also apply to the lab schools.

Funding for LSMSA and NOCCA and Legacy Type 2 Charter Schools

Proposed formula adds funding for LSMSA , NOCCA , and Legacy Type to Charter Schools to the formula as follows:

1. LSMSA and NOCCA shall be considered a public school and annually appropriated funds as determined in the MFP formula.
2. Each LSMSA student in membership, and each NOCCA full-day student in membership, as defined by BESE, shall be provided be provided for and funded from the MFP a per pupil amount equal to the amount allocated per student for the state share of the MFP.
3. Any Legacy Type 2 Charter School approved by BESE prior to July 1, 2008 will be funded in the MFP per the formula contained in R.S. 17:3995, except that any mid-year adjustments shall be based on guidelines established in the MFP formula.
4. Specifies that requirements in the formula relative to using 50% of increased funds for pay raises for certificated personnel also apply to the lab schools.

Funding for Type 2 Charter Schools

1. Provides that any school authorized as a Type 2 charter school by BESE on or after July 1, 2008, shall annually be appropriated funds as determined by applying the formula contained in R.S. 17:3995, except that the local share allocation will be funded with a transfer of the MFP monthly amount representing the local share allocation from the city, parish, or local public school board in which the attending students reside. Provides that where student attendance is from multiple school districts, the Dept. of Education shall determine the local share based on students reported by the schools.
2. Proposed formula adds that the student membership count of Type 2 charter schools shall be included in the membership count of the local school board in which the school is located to determine the local share.

Funding for Office of Juvenile Justice Schools and Students

Provides funding for OJJ schools as follows:

1. Any elementary or secondary school operated by OJJ shall be considered a public school and annually appropriated funds as determined in the MFP formula.
2. Each student counted in the prior year average daily membership shall be provided for and funded from the MFP a per pupil amount equal to the amount allocated per student for the state share of the district where the student resided prior to adjudication.

- a. The state share per pupil allocation shall be adjusted based on a factor determined by DOE to provide for the differential in the number of educational days provided to students in OJJ custody.
 - b. The state share per pupil allocation shall also be adjusted to recognize the increased number of special education students in OJJ schools relative to the state average special education student population.
3. Each student counted in the prior year average daily membership shall be provided for and funded from the MFP a local share per pupil amount equal to the amount allocated per student for the district where the student resided prior to adjudication.
 - a. For purposes of the local share allocation per pupil amount, the average daily membership of the OJJ shall be included in the membership counts of the local school board in which the student resided prior to adjudication to OJJ.
 - b. For a district that has schools transferred to the RSD and shares local revenue, the allocation for OJJ will be completed before the calculation of revenues for purposes of RSD funding.
 - c. The local share allocation shall be funded with a transfer of the MFP monthly amount representing the local share allocation from the local school board in which the attending students resided prior to adjudication to OJJ.

Adjustments for Audit Findings and Data Revisions

Provides that review and/or audit of a district's data may cause changes in final statistical information and that any necessary adjustments in a district's MFP allocation resulting from such audit findings will be made in the following school year.

Required Pay Raise for Certificated Personnel

1. Requires that 50% of a district's increased funds provided in Levels 1 and 2 over the prior year shall only be used to supplement full-time certificated salaries and retirement benefits for school systems, the RSD, and LSU/SU lab schools with an average teacher salary below the SREB average teacher salary.
2. This requirement will be suspended for city, parish, or other local school systems, Recovery School District schools, LSU and SU Lab schools, Office of Juvenile Justice Schools, LSMSA, NOCCA, and Legacy Type 2 Charter schools in any year in which no annual increase is provided in the state base per pupil amount.

70% Local General Fund Required Instructional Expenditure at the School Building Level

Requires that 70% of local school system general fund expenditures must be in the areas of instruction and school administration at the school building level and additionally provides as follows for a local school district that fails to meet the 70% instructional expenditure requirement:

1. A school district that fails to meet the 70% instructional expenditure requirement but has a District Performance Score (DPS) at or above the state average should be provided a waiver for noncompliance.
2. A school district that fails to meet the 70% instructional expenditure requirement and has a DPS below the state average should face the following consequences:
 - a. Be required to assess expenditures in non-instructional areas to determine operational activities that could be streamlined through outsourcing, privatization, or consolidation and report to BESE on the implementation

plan to redirect any savings from these actions to instructional activities in accordance with DOE timelines.

- b. Be required to examine the manner in which state and federal funds are utilized, revise spending patterns, and report to BESE on implementation of these actions according to DOE timelines.
- c. If involved in desegregation litigation, be required to examine the manner in which state and federal funds are utilized, revise spending patterns, and report to BESE on implementation of these actions according to DOE timelines.

Expenditure Requirement for Foreign Language Associate Program

1. Requires that the state must maintain support of the Foreign Language Associate Program at a maximum of 300 Foreign Language Associates employed in any given year.
2. Provides that these teachers shall be paid by the employing school system or school the state average classroom teacher salary (without PIP) by years of experience and degree beginning with year three.
3. Specifies that first-year teachers will receive an installation incentive of an additional \$6,000 and second- and third-year teachers will receive a retention incentive of an additional \$4,000. Provides that these amounts must be provided to each Foreign Associate Teacher by each school district or school in which the teacher is employed.

Expenditure Requirement for Educational Purposes

Requires that state MFP funds shall be expended only for educational purposes.

Accountability Provisions

1. Requires that each school recognized by DOE will be included in a MFP Accountability Report submitted to the House and Senate education committees by June 30 of each year.
2. Requires for accountability from local school districts, the RSD, and the LSU/SU lab schools for all weight factors: at-risk, career and technical education, special education other exceptionalities, and special education gifted and talented.
3. Requires an annual report to DOE detailing the types of activities for which these funds were expended to serve the needs of the weighted students. Further requires that such report be published on the DOE website in an easily understandable format.

Study of Funding for Public Education

Proposed formula directs DOE, in an effort to explore opportunities to increase student achievement, to establish a pilot program for student-based budgeting.
