<b>Subject:</b> Dedication To Casino Support Services Contract	

GAMING/REVENUEEG +\$3,600,000 SD RV See NotePage 1 of 1

Provides relative to the casino support services contract

Current law requires the gaming control board to negotiate and agree to a casino support services contract with Orleans Parish, subject to approval of the Joint Legislative Committee on the Budget (JLCB). If the JLCB disapproves or does not act upon the amount of the contract, the contract shall be null and void. Support services include fire, police, sanitation, health, transportation, and traffic services. Current law also provides that monies paid to the state by the casino operator be deposited into the Support Education in Louisiana First Fund (SELF). Proposed law retains current law but prohibits the treasurer from depositing any monies into a special fund created by the bill if JLCB disapproves or does not act on a contract. The special fund created by the bill is the Casino Support Services Fund, and allocates casino remittances into it, up to the amount of the latest approved contract, but only after 10% of casino remittances have been deposited into the SELF fund. Then an amount sufficient to fund the approved contract is deposited to the Support Services Fund. After that the remainder of remittances are deposited to the SELF. Governor's signature.

EXPENDITURE EXPLANATION

The last casino support services contract was approved by the JLCB on 4/14/2010, and the general appropriation bill for FY11 contained a \$3.6 million appropriation from the Casino Support Service Fund, contingent upon enactment of a bill similar to this one in that session (HB 334). That bill was vetoed. So far this session no support contract has been approved and no appropriation has been made. This amount has been appropriated from the state general fund in prior years (FY07-10), at the lesser amount of \$1 million in the years FY04-06, and in the amount of \$6 million in FY00.

REVENUE EXPLANATION

From payments made to the state by the casino operator, the bill requires 10% to be deposited into the SELF fund (salary expenses for pre-K through 12th grade teachers in the MFP and college faculty), and then an amount sufficient to fully fund the latest approved casino support services contract is to be deposited into the Casino Support Service Fund, newly created by this bill. After that, the remainder of payments are to be deposited into the SELF fund.

In five of the nine years since 2002, the SELF fund has had end-of-year balances in excess of \$3.6 million (as little as \$4.3 million and as much as \$20.5 million). These historical balances suggest that in most years payments from the casino operator could be sufficient to fully cover the salary obligations of the SELF fund and the allocation to the support services contact (at the \$3.6 million level). However, in four of nine years since 2002, the SELF fund’s end-of-year balances have been less than the \$3.6 million (as little as 4¢ and as much as \$2.4 million). For the last two complete fiscal years, FY09 and FY10, the SELF ending balance has been only \$1.6 million in each year.

Thus, since the Casino Support Service Fund receives its full allocation after only 10% of remittances have been deposited to the SELF, it is possible that in some years the SELF fund obligations may not be fully covered. In those instances the state general fund would presumably be required to supplement the SELF. This occurred in FY11, as the Executive Budget for that fiscal year added \$7.581 million of state general fund financing to the Minimum Foundation Program to supplement SELF fund financing for the MFP, as a result of downgrades to gaming activity revenue forecasts and consequent SELF fund allocations.
