PART XLII. CLINICAL PRECEPTOR NURSE AIDE TRAINING PROGRAM

§1300.21. Clinical preceptor nurse aide training program; legislative intent

The Legislature of Louisiana hereby finds that there is a serious need for adequately trained certified nurse aides and, therefore, it is in the best interest of the state to maximize the opportunities which are available to students who are seeking to become certified nurse aides. The legislature further finds that a clinical preceptor nurse aide training program operated by the Louisiana Technical and Community College System in conjunction with nursing homes located throughout the state not only provides a viable method of training but also provides such training at a considerably lower cost than the traditional method of training.

§1300.22. Clinical preceptor training program

A. The Louisiana Community and Technical College System is hereby authorized to develop and maintain a clinical preceptor nurse aide training program.

B. Any program developed under the provisions of this Part shall be in compliance with all federal laws and regulations.

Section 3. R.S. 37:1026.9 is hereby repealed.
