EXPENDITURE EXPLANATION

The proposed legislation would provide a 10% preference for steel pipe manufactured in Louisiana. This legislation would increase expenditures to the extent that local contracts are awarded to Louisiana businesses over lower priced products sold by businesses outside the state.

REVENUE EXPLANATION

The impact on revenue collections is indeterminable. While some Louisiana businesses may benefit due to the proposed preference and thereby result in increased tax revenues to the state, there may be a corresponding negative reaction due to other state’s reciprocal preferences which will impact the ability of Louisiana businesses to sell steel pipe manufactured in Louisiana to out of state agencies.
