Present law provides for the elements and criminal penalties for the crimes of sexual battery, second degree sexual battery, oral sexual battery, and molestation of a juvenile. EXPENDITURE EXPLANATION

The proposed legislation may result in an indeterminable increase in state general fund expenditures since penalties for the crimes of sexual battery, second degree sexual battery, oral sexual battery, and molestation of a juvenile will increase in certain situations.

When the acts of sexual battery, second degree sexual battery, oral sexual battery, and molestation of the infirm are committed and the victim has paraplegia, quadriplegia, or is otherwise incapable of preventing the act due to a physical disability, is incapable, through unsoundness of mind, of understanding the nature of the act, and the offender knew or should have known of the victim's incapacity, or is over the age of 65, the defendant, when convicted would be sentenced to serve at least 25 years at hard labor and be monitored electronically the reminder of his nature life once the sentence is served. The exact fiscal impact of the passage of this legislation is indeterminable, since it adds components to existing law regarding the mentally and physically infirm and it is not known how many people will be convicted of this crime. However, for each offender that is convicted of these crimes, expenditures will increase by \$20,360 (\$55.78 per day x 365 days) per year and the total cost for serving 25 years would be \$509,000 (\$20,260 per year x 25 years). For each year the offender remains alive after serving his sentence, he must remain on electronic monitoring. The cost per day will be \$5.77 for probation supervision and electronic monitoring, which results in an annual cost of \$2,106 (\$5.77 per day x 365 days).

NOTE: According to DOC, in 2010 there were 266 admissions for the following crimes: 73 for sexual battery with an average sentence of 11.2 years; 1 for second degree sexual battery with a sentence of 2.0 years; 12 for oral sexual battery with an average sentence of 18.6 years; and 42 for molestation of a juvenile with an average sentence of 11.4 years. In 2010 there were 192 releases for the following crimes: 65 for sexual battery with an average time served of 4.2 years; 1 for second degree sexual battery with time served of 12.4 years; 8 for oral sexual battery with an average time served of 5.3 years; and 38 for molestation of a juvenile with an average time served of 5.0 years. There are a total of 1,035 offenders in the custody of DOC for the crimes mentioned. It should be noted that the sentences imposed and time served for the crimes listed above are for informational purposes only since the crimes were committed against juveniles.

REVENUE EXPLANATION

The proposed legislation may result in an indeterminable increase in self-generated revenue in future fiscal years beyond the period reflected above due to the proposed legislation. Any offender convicted these crimes that is released to parole or probation after serving 25 years, will have to pay the monthly fee for probation supervision or parole supervision.
