EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The proposed legislation would provide a 10% preference for steel pipe manufactured in Louisiana if that manufacturer is within 10% of the lowest bid and that same manufacturer agrees to sell the steel at the same price as the lowest bid offered.

To the extent the Louisiana manufacturer’s bid is 0% to 10% more than an out of state manufacturer, then preference will be granted to the Louisiana manufacturer if that Louisiana manufacturer agrees to sell the steel at the same price as the lowest bid offered.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
