EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

This bill will continue the current fee structure as provided for in current law. Therefore, there will be no fiscal impact on the revenues of Jefferson Parish.

Current Law: SB 707/Act 667 of the 2010 regular session changed the definition of “contractor” to include oil field-related fabrication and oil field service contractors as it relates to occupational license tax in Jefferson Parish. Occupational license taxes are charged based upon business classification and gross receipts or commissions; however, those meeting the definition of “contractor” will have a maximum occupational license tax of \$750. This Act will expire on July 1, 2011.

Proposed Law: This bill allows Jefferson Parish to continue to include oil field-related fabrication and oil field service contractors within the definition of a “contractor”. Based on the 2010 Census, this bill revises the population range to apply only to Jefferson Parish.

It should be noted that an official with the Tax Collection Department of the Jefferson Parish Sheriff’s Office concludes that the proposed law would limit the collection of occupational license tax revenues in Jefferson Parish. He stated that specific dollar estimates are indeterminable because the number of businesses that would use this definition of “contractors” is unknown.
