

New law requires the marshal of the City Court of Leesville to collect an additional fee of \$30 for service of process in traffic and criminal matters.

New law requires the monies collected to be deposited in the marshal's general fund to supplement the operational expenses and requires the funds to be subject to the marshal's annual audit, which shall be filed with the legislative auditor and made available for public inspection.

Provides that new law does not affect the responsibilities of the city and parish governing authorities for otherwise financing the marshal's office of the City Court of Leesville.

Effective August 15, 2011.
