If the number of subscribers for such discrete episodes or instances cannot be accurately determined from the taxpayer's books and records, the audience factor shall be determined based on statistics located in published surveys. (ii) For purposes of this Subparagraph, gross apportionable income includes advertising income and income from cable or satellite systems and local television and radio stations. "Louisiana customers" includes cable or satellite systems, local television and radio stations, and advertisers with a commercial domicile in the state and a contract or agreement directly with the taxpayer under which revenue is derived by such taxpayer.
