

Prior law provided for the Environmental Education Commission in the Dept. of Wildlife and Fisheries, provides for the commission's powers and duties, and creates the office of environmental education within the office of wildlife, Dept. of Wildlife and Fisheries.

New law repeals the office of environmental education.

Prior law provided for a \$1 fee on the fee charged for driver's licenses to be deposited into the La. Environmental Education Fund and to be used for public service announcements and for the education and training of drivers of motor vehicles regarding littering or to finance local littering enforcement activities until Aug. 15, 2011.

Prior law created a prestige motor vehicle environmental education license plate for the Dept. of Wildlife and Fisheries. Revenues received from the donations from the plates were deposited into the La. Environmental Education Fund to be used for the purposes of the Environmental Education Commission.

Prior law provided that litter fines collected under existing law shall be paid as follows: 50% to the ticketing law enforcement agency; 30% to the sheriff, parish governing authority, or municipality where the offense occurred, 10% to the prosecution, and 10% to the Keep Louisiana Beautiful Fund.

New law repeals La. Environmental Education Fund and the Keep Louisiana Beautiful Fund and replaces the funds with the "litter abatement and education account" within the Conservation Fund.

New law provides that the funds from the prestige license plate, driver's license fee and litter fines, along with any public or private donations, shall be deposited into the "litter abatement and education account" within the Conservation Fund, and repeals driver's license fee sunset date.

New law provides that funds in the account shall be used solely for litter abatement and enforcement; public service announcements; develop, review, and approve a plan for statewide environmental education and training of operators of vehicles regarding littering; to finance local littering enforcement activities in order to promote public safety, order, and general welfare by making the streets, roads, rivers, streams, bayous, lakes, waterways, and highways of La. clean, safe, and free of debris, litter, and other material falling from or being thrown from vehicles; and to award grants to nonprofit organizations and public agencies for the development, dissemination, and assessment of such education programs.
