EXPENDITURE EXPLANATION

The proposed legislation may result in an indeterminable increase in state general fund expenditures if a defendant is convicted of aggravated battery, second degree battery, or aggravated second degree battery and the offender has reasonable grounds to believe that the victim is an active member of the United States Armed Forces or is a disabled veteran. The exact fiscal impact of the passage of this legislation is indeterminable, since it imposes a minimum mandatory sentence if the offender has reasonable grounds to believe the victim is an active member of the United States Armed Forces or is a disabled veteran and it is not known how many individuals will be convicted of this crime. However, any offender sentenced to the custody of the Department of Public Safety and Corrections increases expenditures by \$24.39 per day per offender in local facilities. To the extent that offenders are sentenced and housed in state facilities, the cost per day per offender is \$50.75. Currently, the Department of Corrections houses 50% of state offenders at the local level and 50% at the state level.

To the extent a defendant is convicted and is sentenced to 1 year of incarceration, the cost to house the offender at a local facility would be \$8,902 (1 offender x \$24.39 per day x 365 days) and the cost to house the offender at a state facility would be \$18,524 (1 offender x \$50.75 per day x 365 days).

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
