Provides relative to the casino support services contract

<u>Current law</u> requires the gaming control board to negotiate and agree to a casino support services contract with Orleans Parish, subject to approval of the Joint Legislative Committee on the Budget (JLCB). If the JLCB disapproves or does not act upon the amount of the contract, the contract shall be null and void. Support services include fire, police, sanitation, health, transportation, and traffic services. <u>Current law</u> also provides that monies paid to the state by the casino operator be deposited into the Support Education in Louisiana First Fund (SELF).

<u>Proposed law</u> prohibits the treasurer from depositing any monies into the Casino Support Services Fund (newly created by this bill) if JLCB disapproves or does not act on a contract. If a contract is approved, the first \$1.8 million of casino receipts are allocated to the new fund. The next \$74 million of receipts are deposited to the SELF fund. Receipts in excess of \$75.8 million are split between both funds up to the amount of the latest approved contract. The remainder of receipts are deposited to the SELF. A quarterly payment basis for the contract is also removed from current law.

EXPENDITURE EXPLANATION

The latest casino support services contract was approved by the JLCB on 3/20/2012 for \$3.6 million for 2012-2013. However, no amount has been included in HB 1 Original for 2012-2013. An appropriation was made to support the contract, contingent upon enactment of HB 516 of the 2011 session (from the new Fund created by HB 516). That bill was vetoed, but \$3.6 million was also appropriated from SELF for FY12. This amount (\$3.6 million) has been appropriated from the state general fund in prior years (FY07-10), at a lesser amount of \$1 million in the years FY04-06, and \$6 million in FY00.

REVENUE EXPLANATION

From casino receipts, the bill requires the first \$1.8 million to be deposited into the Casino Support Services Fund, newly created by this bill. The next \$74 million of receipts are allocated to the SELF fund (supports salary expenses for pre-K through 12th grade teachers in the MFP and for college faculty). Receipts beyond that are split evenly between the two funds, up to the amount of the latest approved contract. Once the contract is fully funded, the remainder of receipts are deposited to the SELF. A quarterly payment basis is removed from current law. This might reduce state earnings, but casino receipts to finance the contract come in over the course of the year anyway, and may not be paid out at once.

In five of the ten years since 2002, the SELF fund has had end-of-year balances in excess of \$3.6 million (as little as \$4.3 million and as much as \$20.5 million). This subset of historical ending balances suggests that in some years receipts from casino operations could be sufficient to fully cover the salary obligations of the SELF fund and the allocation to the support services contact (at the \$3.6 million level).

However, in five of the ten years since 2002, the SELF fund's end-of-year balances have been less than the \$3.6 million (as little as 4¢ and as much as \$1.3 million). For the last three complete fiscal years, FY09, FY10, and FY11 the SELF ending balance has been only \$1.3 million to \$1.6 million per year. This subset of historical ending balances suggests that in some years, and especially in recent years, receipts from casino operations could be insufficient to fully cover the salary obligations of the SELF fund and the allocation to the support services contact (at the \$3.6 million level).

Although the bill provides that the Casino Support Service Fund receives it's full allocation (at the \$3.6 million level) only after \$75.8 million of receipts have been deposited to the SELF (\$79.4 million of total receipts), and any additional funding of the contract occurs from receipts above that level, it is possible that in some years the SELF fund obligations would not be fully covered. In those instances the state general fund would presumably be required to supplement the SELF obligations. This has occurred in FY11, FY12, and the FY13 proposed budget as state general fund financing has been added to the Minimum Foundation Program to supplement SELF fund financing in the MFP (\$7.581 million, \$209,000, and \$2.9 million, respectively), as the result of insufficient gaming activity revenue relative to SELF fund requirements.
