EXPENDITURE EXPLANATION

Under current law, health care providers are required to provide copies of medical records to the requesting parties included under R.S. 40:1299.96(A)(2)(b). There is no anticipated change in the number of medical records requests. Under the proposed legislation, should any state or local health care facility violate the current statute regarding the provision of medical records, its expenditures would increase by \$1,000 per violation plus attorney fees and costs to be paid to the requestor of the medical records as a civil penalty.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
