EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

The proposed legislation will increase self-generated tuition revenues at the Southern University Lab School by \$155,000 per year beginning in Fiscal Year 2012-13 if the Southern University Board of Supervisors approves the maximum \$500 increase authorized by the bill. This maximum potential increase is based on 310 students currently enrolled at the Southern University Lab School (310 students X \$500 per student = \$155,000). The actual revenues generated from the proposed tuition increase would be proportionally less than \$155,000 per year to the extent that the Southern University Board of Supervisors authorizes tuition increases less than the maximum amount of \$500 per student per year allowed by the bill.
