PUBLIC CONTRACTS RE DECREASE EX See Note Page 1 of 1
Provides for a 10% reduction of all state professional, personal, and consulting service contracts

Proposed legislation provides for the total dollar amount for professional, personal, consulting and social services contracts under the jurisdiction of the office of contractual review (OCR) for FY 13 to be reduced by no less than 10% of the total dollar amount in FY 12. Proposed legislation provides for OCR to submit status reports to the Joint Legislative Committee on the Budget (JLCB). In addition, proposed legislation provides that OCR will not approve any contract if such approval would increase the total dollar amount of contracts above the minimum 10% reduction unless the following criteria are met: 1.) either no employee of the contracting department is both competent and available to perform the services, 2.) the services are not available as a product of a prior existing contract, 3.) the contracting department has submitted to OCR a written plan to monitor and evaluate the performance within the contract, 4.) it is more cost effective to obtain the proposed services through the contract, 5.) the commissioner of administration determines that the proposed contract represents a priority expenditure for Louisiana state government. Effective July 1, 2012.

EXPENDITURE EXPLANATION

The proposed bill could result in an indeterminable decrease in overall state expenditures in FY 13 and would impose a cap on the total amount of professional, personal, consulting and social services contracts approved by the Office of Contractual Review (OCR) in FY 13 to be at a minimum 10% less than the total value of contracts approved in FY 12.

Complete and audited FY 12 contract data is not currently available. Pursuant to R.S. 39:1489, OCR is required to complete its annual report from the previous fiscal year in January of the following fiscal year. Based upon current law, the total value and number of professional, personal, consulting and social services contracts for the current year (FY 12) would not be officially reported until January 2013 in the FY 12 OCR Annual Report.

For **illustrative purposes**, per the FY 11 OCR Annual Report, which was released in January 2012, OCR approved 3,764 professional, personal, consulting and social services contracts for a total contract value of approximately \$2.24 billion. To the extent this bill would have been enacted during the 2011 Regular Legislative Session, the projected 10% reduction in the value of OCR approved professional, personal, consulting and social services contracts for FY 12 would have equated to approximately \$223.7 million less, or an FY 12 cap of \$2.01 billion. The LFO cannot ascertain the various funding sources that would have been impacted by reducing the level of such contracts. Therefore, it is likely that the \$223.7 million reduction in approved contracts would have impacted all means of financing, which is reflected in the expenditure table above.

R.S. 39:1484 defines professional, personal, consulting and social services contracts.

The proposed legislation also provides that if a professional, personal or consulting services contract that was awarded through a line item appropriation in the General Appropriations Act and subsequently vetoed by the governor, the office of contractual review shall not approve such a contract without prior approval of the Joint Legislative Committee on the Budget (JLCB).
