This will reduce funding to streamline the department by realigning its expenditures to spending patterns based on a three-year average and will help to comply with the \$15 million preamble adjustment, and reflects the fact that the department has four funded vacant positions; therefore, I am vetoing this item.

Veto Message No. 5

Page 130, lines 7-20:

This language is unnecessary to achieve the goals and objectives of the department; therefore, I am vetoing this item.

This is language in the Department of Health and Hospitals regarding the use of a \$54 million appropriation (the appropriation was not vetoed) from the Community Hospital Stabilization Fund and matching federal funds. The language would have stipulated the funding was to be used first for implementing certain reimbursement methodologies for Medicaid inpatient hospital services, then, if funding remains, supplemental payments to non-state hospitals receiving certain certifications.

Vetoed Lines:

"Provided, however, that the \$54,117,352 appropriated above shall only be utilized by the department for the purposes of implementing a diagnosis-related group (DRG) reimbursement methodology for Medicaid inpatient hospital services that does not result in aggregate reductions in payments to non-state hospitals and, to the greatest extent possible, maintaining the Medicaid reimbursement rates for inpatient and outpatient hospital services at the amounts in effect on June 30, 2012. Provided, further, that, only in the event funding is available after implementing the diagnosis-related group methodology and fully funding the Medicaid reimbursement rates for inpatient and outpatient hospital services at the amounts in effect on June 30, 2012, the department shall make supplemental Medicaid payments to any non-state hospital that has achieved certification from the American Academy of Surgeons verifying it as a Level II Trauma Center operating in the state as of November 8, 2011, in an amount not to exceed a total of \$698,812, of which \$200,000 is State General Fund by Statutory Dedication out of the Community Hospital Stabilization Fund."

Veto Message No. 6

Page 130, lines 30-34:

The Department of Health and Hospitals needs to have flexibility in implementing reimbursement methodologies; therefore, I am vetoing this item.

This is language in the Department of Health and Hospitals that would have stipulated reimbursement rates in effect on January 1, 2009, for private Intermediate Care Facilities for individuals with Developmental Disabilities that are of a specific bed count were to be maintained.

Vetoed Lines:

"Provided, however, that of the total appropriated herein for the Payments to Private Providers Program, the department shall maintain the Medicaid reimbursement rate paid to the private providers of Intermediate Care Facilities for people with Developmental Disabilities which have downsized from over 100 beds to less than 35-bed facilities prior to December 31, 2010, at the reimbursement rate in effect on January 1, 2009."

Veto Message No. 7

Page 130, lines 39-46:

Requiring this approval before rules can be promulgated would cause delays in the implementation of the service, reduce budgeted savings by increasing the expenses of the initiative, and cause the budget to be out of balance; therefore, I am vetoing this item.

This is language in the Department of Health and Hospitals that would have required review and approval by the Joint Legislative Committee on the Budget on the department's plans to transition pharmaceutical goods and services from the current fee-for-service model to a managed care model prior to promulgating rules.

Vetoed Lines:

"Provided, however, that the department shall prepare a report on its plans for the transition of pharmaceutical goods and services provided under the state's Medicaid program from its current fee-for-service model to a managed care model for the review and approval of the Joint Legislative Committee on the Budget prior promulgating rules to effect such change. Such report shall include explanations of patient access and safety protections, including but not limited to continuity of care, coverage of medications for patients with chronic disease, and review of medical appropriateness of all formulary management tools and quality limitations."

Veto Message No. 8

Page 130, lines 47-50:

The implementation of this amendment would limit the budgetary discretion of the department during fiscally challenging times; therefore, I am vetoing this item.

This is language in the Department of Health and Hospitals that would have provided that the 10 hospitals administered by LSU be paid federal funds for allowable expenditures that they incur and certify, which are in excess of amounts appropriated in HB 1.

Vetoed Lines:

"Notwithstanding any provision of this Act to the contrary, the ten hospitals administered by the Louisiana State University Board of Supervisors shall be paid federal funds for expenditures incurred and certified in excess of the amounts appropriated within this Act for Title XIX Medicaid services and uncompensated care allowable costs."

Veto Message No. 9

Page 131, lines 19-21:

This amendment would increase the expenses of the program and cause the budget to be out of balance; therefore, I am vetoing this item.

This is language in the Department of Health and Hospitals that would have provided for adjustments to the Medicaid preferred drug list to limit brand name drug products in each therapeutic category.

Vetoed Lines:

"Provided, further, that the preferred drug list may be adjusted to limit brand name drug products in each therapeutic category to not less than two brand products where available while ensuring appropriate access to medically necessary medication."
