DIGEST

Erdey (SB 147)

Present law prohibits any person from operating a motor vehicle upon any public road or highway of this state while using a wireless telecommunications device to write, send, or read a text-based communication.

Present law excepts certain persons from prohibition of using a wireless telecommunications device to write, send, or read a text-based communication.

Proposed law retains present law and further prohibits any person from operating a motor vehicle upon any public road or highway of this state while using a wireless telecommunications device to access, read, or post to a social networking site.

Proposed law defines "access, read, or post to a social networking site" as using a wireless telecommunications device to access, read, or post to any web-based service that allows individuals to construct a profile within a bounded system, articulate a list of other users with whom they share a connection, and communicate with other members of the site.

Present law provides that any violation of present law shall constitute a moving violation.

Proposed law retains present law and provides that using a wireless telecommunications device to access, read, or post to a social networking site shall constitute a moving violation.

Present law, with regard to driver's license applications of minors, provides that upon completion of a driver's education course approved by the Dept. of Public Safety and Corrections, public safety services, and upon passing a visual examination and a road knowledge test, including rules of the road, signs, and signals, sharing the road with motorcycles and tractor/trailer trucks, and not less than two questions relative to railroad and highway grade railroad safety, an applicant at least 15 years of age, but less than 17 years of age, applying for the first time may be issued a Class "E" learner's license. Further provides that the license may be issued for a four-year period at the same fee as a Class "E" driver's license and must be maintained for at least 180 days, unless prior to such time the driver reaches 17 years of age, prior to being converted to a Class "E" intermediate driver's license. Provides that the Class "E" learner's license shall authorize the holder to drive while being accompanied by a licensed parent, guardian, adult at least age 21 or older, or licensed sibling at least age 18 or older.

Present law requires every driver's license applicant to pass a written knowledge and skills test for a motor vehicle representative of the type of motor vehicle he operates or expects to operate, or provide evidence on a form approved by the department that he has successfully passed the written knowledge test and a driving or skills test administered by an authorized third party.

Requires that in addition to the specialized knowledge and skills tests, each such examination shall include: a test of the applicant's eyesight; his ability to understand highway signs regulating, warning, and directing traffic; his knowledge of railroad and highway grade crossing safety; his knowledge of sharing the road with motorcycles and tractor/trailer trucks; his knowledge of the economic effects of littering; and his knowledge of all relevant traffic regulations.

Proposed law retains present law and requires that the tests administered to driver's license applicants includes the applicant's knowledge of distracted driving issues.

Effective August 1, 2013.

(Amends R.S. 32:300.5(A), 300.5(B)(intro para), 407(A)(2)(a), and 408(A)(1))

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Transportation, Highways, and Public Works to the original bill

1. Makes use of any device to access, read, or post to a social networking site while operating a motor vehicle applicable to all persons.
2. Revises definition of "access, read, or post to a social networking site" to mean using a wireless telecommunications device to access, read, or post to any web-based service.

Senate Floor Amendments to engrossed bill

1. Require tests administered to driver's license applicants include the applicant's knowledge of distracted driving issues.
