The resolution requires a favorable vote of a majority of the elected members of each house in subsequent years. Further, the resolution shall be referred to the standing committees of the legislature that receive the general appropriation bill. The formula provided for in the resolution includes:

- (2) Assessments to be paid by La. hospitals, provided the amount of the assessment does not exceed the nonfederal share of the rate enhancement.

- (3) Reimbursement rate enhancements for those hospitals subject to an assessment provided for in the formula.
- (4) Any additional provisions necessary to the implementation of the formula.

Proposed constitutional amendment provides that the base rate shall not be paid from the Hospital Stabilization Fund.

Proposed constitutional amendment provides that no assessments shall be collected from any hospital in a fiscal year in which any of the following occur:

- (1) The legislature fails to adopt a formula.
- (2) The Department of Health and Hospitals reduces or does not pay rate enhancements established in the current formula.
- (3) The appropriations provided for in proposed constitutional amendment are reduced.

Proposed constitutional amendment provides for annual appropriation of an amount necessary to fund the base rate for hospitals and appropriate the balance of the Hospital Stabilization Fund created in the proposed constitutional amendment for rate enhancements.

Proposed constitutional amendment provides for reductions to the appropriations if the reduction is consented to in writing by 2/3 of the elected members of each house in a manner provided by law and does not exceed the average reduction of those made to the appropriations for other providers under the Medicaid Program.

Proposed constitutional amendment creates the Hospital Stabilization Fund and provides appropriations only for funding the rate enhancement established in the Hospital Stabilization Formula for the fiscal year in which the assessment is collected. Any amounts remaining in the fund at the end of a fiscal year shall be refunded to the participating hospitals in proportion to the assessments paid.
