SENATE BILL NO. 196

BY SENATORS DONAHUE, JOHNS AND MILLS

Prefiled pursuant to Article III, Section 2(A)(4)(b)(i) of the Constitution of Louisiana.

AN ACT

To enact R.S. 17:3130(C) and 3351(F), R.S. 24:653(L), and R.S. 36:8(A)(6), relative to fiscal oversight; to provide for the annual reporting by executive branch departments and public postsecondary education management boards to the Joint Legislative Committee on the Budget on enacted legislation with significant fiscal impact that exceeds original estimates; to provide for the review and analysis of such reports by the Joint Legislative Committee on the Budget; to provide for an effective date; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 17:3130(C) and 3351(F) are hereby enacted to read as follows:

11 §3130. Other powers

12 * * *

C.(1) The legislature hereby finds that it is critical to utilize a tool such as Joint Rule No. 4 which is an established process for the development and preparation of fiscal notes by the legislative auditor or the legislative fiscal office to estimate the cost for a five-year period of time during deliberations on instruments of a fiscal nature. These fiscal notes provide estimates of the impact not only for revenue and expenditure costs to state departments, agencies, and higher education institutions throughout the state, but also session subject matter, including but not limited to tax increases, decreases, fee increases and repeals, tax exemptions, suspensions, credits, rebates, exclusions, and deductions, among others. The legislature hereby finds that in order to properly track and assess the impact of legislation over time, it is necessary to periodically evaluate the extent to which fiscal impacts have changed from the

original estimates. The management of state resources requires a comparative review of the growth of initial projections to actual year-end results. When expenditure and revenue initiatives exceed original estimates, the maintenance of balanced budgets becomes exceedingly difficult to achieve. To address this issue, the Joint Legislative Committee on the Budget should require an annual examination of the estimated results compared to actual implemented results. The review of intended versus actual results should apply to both state departments, agencies, boards, and commissions, as well as higher education institutions. A process for review shall be established by the Joint Legislative Committee on the Budget and all findings shall be reported to all members of the legislature.

(2) As provided by R.S. 17:3351(F), beginning October 1, 2013, and each year thereafter, the Board of Regents shall review the reports of legislation with significant fiscal impact submitted by the various public postsecondary education management boards. After the Board of Regents has performed its review of the reports submitted by the management boards, the reports shall be submitted to the Joint Legislative Committee on the Budget by October thirtieth of each year as required by R.S. 24:653(L).

F. Each public postsecondary education management board shall annually conduct a review to identify any legislation that has been implemented and has been operational for at least six months in the prior year that affects the board or the institutions under its control and has a fiscal impact which has increased by the amount of one million dollars or more over the amount of the fiscal note as the bill was enacted. The analysis should also report the impact to the higher education institutions in terms of operations and personnel. Each management board shall compile the report and submit the report to the Board of Regents by September thirtieth of each year in accordance with the
