## DIGEST

Brown (SB 91)

Present law authorizes capital outlay budget requests submitted after November first to be included within the capital outlay act if the capital outlay budget request meets all applicable requirements except for time of submission and if any of the following conditions have been met:

- (1) The project is an economic development project recommended in writing by the secretary of the Department of Economic Development.
- (2) The project is an emergency project recommended in writing by the commissioner of administration.
- (3) The project is for a non-state entity, has a total project cost of less than one million dollars, and has been approved by the Joint Legislative Committee on Capital Outlay; however, no action to approve any such project may be taken by the Joint Legislative Committee on Capital Outlay after the first day of February.

Proposed law retains present law and adds a fourth exception to the November 1st deadline for submission of capital outlay requests:

- (4) The project is located in a designated disaster area, there is an imminent public need for the project because of a national or state declared disaster and the project has been approved by the Joint Legislative Committee on Capital Outlay, which approval may occur after the first day of February and which project may have a total project cost of one million dollars or more.

Present law provides for the definition of "economic development" and "emergency" for purposes of the exceptions to the November first deadline for submission of capital outlay requests.

Proposed law retains present law and adds definitions of "designated disaster area" and "disaster" for purposes of an exception to the November first deadline for submission of capital outlay requests.

Effective July 1, 2014.

(Amends R.S. 39:112(C)(2); adds R.S. 39:112(C)(1)(d))
