EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The Legislative Auditor has indicated that any costs associated with auditing or investigating a local auditee that is a quasi pubic agency that receives any public funding could be absorbed within its current budget.

REVENUE EXPLANATION

The proposed legislation may result in an increase in self-generated revenue as a result of auditing or investigating a local auditee that is a quasi pubic agency that receives any public funding. The Legislative Auditor's Office estimates that the office could complete 5 auditing or investigation projects each year, which would result in reimbursement of approximately \$40,000 (5 projects x 80 hours per project x \$100 per hour). Each audit project is based on an average project taking 80 hours to complete at an average rate of \$100 per hour.
