DIGEST

Mills (SB 600)

Present law provides in any parish designated wholly or in part as a primary care health professional shortage area as set forth under federal regulations, a pharmacist may administer any of the following vaccines, but only in conformance with the present law:

- (1) Pneumococcal, to any person eighteen years of age or older.
- (2) Zoster, to any person fifty years of age or older.

Present law provides the pharmacist shall administer each immunization in conformance with the most current vaccination administration as set forth by the United States Public Health Service Advisory Committee on Immunization Practices, following guidance published in the Louisiana State Immunization Policies and Procedures Manual, to participate in the program and to be covered by the National Vaccine Injury Compensation Fund.

- (1) The pharmacist shall report each immunization to the Department of Health and Hospitals, office of public health's Louisiana Immunization Network for Kids Statewide at the time of the immunization or as soon as reasonably practicable thereafter, as this is the official state vaccination record.
- (2) The pharmacist shall report all adverse events he observes or which are reported to him to the Vaccine Adverse Events Reporting System, the cooperative program of the United States Centers for Disease Control and Prevention and the United States Food and Drug Administration for vaccine safety, or its successor program; and further, the pharmacist shall refer the patient with an adverse event to an immunization for appropriate medical care.
- (3) The pharmacist shall maintain for at least two years a record of each immunization administered.
- (4) The pharmacist shall obtain the appropriate credentials to administer immunizations from the board, as administratively defined, prior to administering any such immunization.
- (5) The pharmacist shall request the name of a patient's primary care provider prior to the administering of any immunization. If the patient identifies such primary care provider to the pharmacist, the pharmacist shall notify the primary care provider, by written or electronic communication, as soon as reasonably possible thereafter that the immunization was administered.

Proposed law amends present law to provide a pharmacist may administer an immunization or a vaccine without a patient specific prescription or medical order if the immunization or the vaccine is administered in conformance with the most current immunization administration protocol as set forth by the United States Centers for Disease Control and Prevention Advisory Committee on Immunization Practice.

- (1) The pharmacist shall report each immunization to the Department of Health and Hospitals, office of public health's Louisiana Immunization Network for Kids Statewide at the time of the immunization or as soon as reasonably practicable thereafter, as this is the official state vaccination record.
- (2) The pharmacist shall report all adverse events he observes or which are reported to him to the Vaccine Adverse Events Reporting System, the cooperative program of the United States Centers for Disease Control and Prevention and the United States Food and Drug Administration for vaccine safety, or its successor program; and further, the pharmacist shall refer the patient with an adverse event to an immunization for appropriate medical care.
- (3) The pharmacist shall maintain for at least two years a record of each immunization administered.
- (4) The pharmacist shall obtain the appropriate credentials to administer immunizations from the board, as administratively defined, prior to administering any such immunization.
- (5) The pharmacist shall request the name of a patient's primary care provider prior to the administering of any immunization. If the patient identifies such primary care provider to the pharmacist, the pharmacist shall notify the primary care provider, by written or electronic communication, as soon as reasonably possible thereafter that the immunization was administered.

Proposed law does not apply to the administering of an immunization pursuant to R.S. 37:1218.

Effective August 1, 2014.

(Amends R.S. 37:1218.1)
