Proposed law stipulates that provision of these materials is a condition for the woman's or minor female's consent to the abortion to be deemed voluntary and informed.

Proposed law requires that the physician or qualified person, as defined in present law, shall provide to the woman or minor female seeking an abortion the materials required by proposed law individually and in a private room for the purpose of ensuring that she has an adequate opportunity to ask questions and discuss her individual circumstances.

Proposed law requires that the physician or qualified person obtain the signature of the woman or minor female certifying that the printed materials were given to her.
