

Requests the Department of Health and Hospitals and its office of behavioral health, to study and develop a list of suicide assessment, intervention, treatment and management training programs meeting the Suicide Prevention Resource Center best practices standards to make available for access by medical professionals and the public in the state; that DHH further develop a list of which other professional and citizen groups, beyond the medical professions, it recommends should be offered such training on a voluntary basis; and that DHH recommend how best to make such training widely accessible for use in Louisiana, through online access or otherwise. Requires written report to Senate and House committees on health and welfare on or before January 1, 2015.
