EXPENDITURE EXPLANATION

There is no anticipated direct material effect on state governmental expenditures as a result of this measure. Creating a new statutory dedication within the state treasury will result in a marginal additional workload for the agency, which can be absorbed with existing resources. However, to the extent other legislative instruments create new statutory dedications, there may be material additional costs associated with the aggregate effort to administer these funds.

In addition to providing financial assistance to a political subdivision, this bill provides for any costs incurred by fiscal administrator, legislative auditor, attorney general, state treasurer relative to this revolving loan program is an allowable expenditure of the fund. Based upon information provided by the LA Legislative Auditor, one fiscal administrator could cost \$125,000 for approximately 1,000 hours of billed work.

REVENUE EXPLANATION

The proposed legislation creates a new statutory dedicated fund within the state treasury, but does not provide for an originating revenue source. To the extent an originating revenue flow is identified, ongoing principle and interest repayments will provide revenue flows deposited into the fund, which will allow any local governmental entity with an assigned fiscal administrator to borrow money from the fund.

NOTE: This bill provides for the approval of the legislative auditor, attorney general, state treasurer, fiscal administrator, district court, state bond commission before a local governmental entity assigned a fiscal administrator can borrow funds from the newly created Fiscal Administrator Revolving Loan Fund.
