SB 173 Original                                  DIGEST                                  Heitmeier  
    2015 Regular Session

Proposed law provides for health insurance coverage for the treatment of morbid obesity.

Proposed law defines "body mass index" to mean a practical marker used to assess the degree of obesity and is calculated by dividing the weight in kilograms by the height in meters squared.

Proposed law defines "morbid obesity" to mean either:

- (a)     A body mass index equal to or greater than forty kilograms per meter squared.
  
- (b)     A body mass index equal to or greater than thirty-five kilograms per meter squared along with an associated comorbidity including but not limited to hypertension, cardiopulmonary conditions, sleep apnea, or diabetes.

Proposed law provides any hospital, health, or medical expense insurance policy, hospital or medical service contract, health and accident insurance policy, or any other contract of this type providing comprehensive major medical benefits, including a group insurance plan, or any policy of family group, blanket, or association health and accident insurance, a self-insurance plan, an employee welfare benefit plan, or a health maintenance organization subscriber agreement which is issued or renewed in this state on or after October 1, 2015, the office of group benefits programs, or, notwithstanding the provisions of present law, any prepaid entity that participates in the Louisiana Medicaid Program shall provide coverage for the medically necessary expenses of the diagnosis and treatment of morbid obesity, including but not limited to bariatric surgery, physician office visits, health and behavior assessments, nutrition education, patient self-management education and training, and therapeutic exercises.

Proposed law provides the coverage required pursuant to proposed law for bariatric surgery shall be limited to facilities of surgical services that are accredited by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program of the American College of Surgeons and American Society of Metabolic Bariatric Surgery as a comprehensive bariatric facility.

Effective October 1, 2015.
