SB 173 Re-Reengrossed

DIGEST
2015 Regular Session

Heitmeier

Proposed law provides for health insurance coverage for the treatment of morbid obesity which is defined as the condition that exists when a person has a body mass index greater than 40 kilograms per meter squared and also has the two comorbidity factors of diabetes and hypertension.

Proposed law defines "body mass index" to mean a practical marker used to assess the degree of obesity and is calculated by dividing the weight in kilograms by the height in meters squared.

Proposed law requires any group insurance plan providing comprehensive major medical benefits which is issued or renewed in this state on or after January 1, 2017, or, notwithstanding the provisions of R.S. 22:1016, any prepaid entity that participates in the Louisiana Medicaid Program to provide coverage for the medically necessary expenses of the diagnosis and treatment of morbid obesity as defined in proposed law, including but not limited to bariatric surgery, physician office visits, health and behavior assessments, nutrition education, and patient self-management education training. This provision shall not apply to the Office of Group Benefits nor to small group insurance plans or to grandfathered large group plans as defined by federal law.

Proposed law provides the coverage required pursuant to proposed law for bariatric surgery shall be limited to facilities of surgical services that are accredited by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program of the American College of Surgeons and the American Society for Metabolic Bariatric Surgery as a comprehensive bariatric facility. Proposed law authorizes health insurance issuers providing coverage pursuant to proposed law to limit such coverage to services provided by a specific limited network of providers based on quality and efficiency factors.

Proposed law requires the fee schedule used for payment of services associated with the treatment of morbid obesity to be the same as the fee schedule used by the Louisiana Medicaid Bayou Health program.

Proposed law requires the Heads Up Program operated by the Office of Group Benefits and the Pennington Biomedical Research Center to continue to serve 100 surgical participants annually through June 30, 2017, or beyond, at the direction of the Office of Group Benefits.

Proposed law provides that a health insurance insurer is only required to cover the services provided for in proposed law to persons between the ages of 17 and 65 years of age.

Proposed law authorizes a health insurance issuer to establish the following limitations regarding any surgery provided for in proposed law:

- (1) Require that the insured and his provider provide documented evidence that he has exhausted all reasonable, nonsurgical options prior to seeking surgery as provided by the Centers for Medicare and Medicaid Services National Coverage Determination for Bariatric Surgery. Such options shall include but not be limited to diet, exercise, and approved medications.
- (2) Establish guidelines for the insured and his provider to follow that ensure that candidates for surgery receive comprehensive medical and behavioral clearance from the provider prior to being approved for surgery.
- (3) Limit coverage for surgery to not more than one surgery per lifetime for any insured, unless surgery is required due to complications due to a prior surgery covered in accordance with proposed law.
- (4) Limit the benefit payable for any surgical procedure to not more than \$15,000 per lifetime. Any additional amounts payable for such surgery shall be the responsibility of the insured.

Proposed law authorizes a health insurance issuer providing coverage under proposed law to exclude coverage for the following items:

- (1) Any membership or access fee charged by a provider.
- (2) Meals or meal supplements.

Effective January 1, 2017.

(Adds R.S. 22:1055)

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Insurance to the original bill

1. Defines morbid obesity.
2. Restricts application only to group health plans.
3. Requires the use of the Louisiana Medicaid Bayou Health fee schedule.
