HB 664 Engrossed

2015 Regular Session

Stokes

**Abstract:** Defines inventory for purposes of the inventory tax credit and authorizes the secretary of Dept. of Revenue to intervene in certain proceedings.

Present law authorizes an income or corporation franchise tax for ad valorem tax paid to political subdivisions on inventory held by manufacturers, distributors, and retailers and on certain natural gas. The amount of the tax is equal to 100% of taxes paid.

Proposed law defines "inventory" for the purpose of the credit to include certain items of tangible personal property that are being held for sale in the ordinary course of business, are in the process of production for subsequent sale, or are to become a part of the production of the good for sale.

Proposed law excludes from the definition of "inventory" certain oil that is stored in tanks, items that would be considered inventory following the initial lease of the item, items for which depreciation has commenced for the purposes of a taxpayer's federal tax return, items that are subject to an intervening use by the taxpayer or that have been owned by the taxpayer for longer than 18 months, and items otherwise exempt from ad valorem taxation pursuant to the La. Constitution.

Proposed law authorizes the secretary to intervene in any proceeding related to the valuation or classification of property as inventory for which a credit will be claimed pursuant to present law when there is a finding of overvaluation or misclassification of inventory in certain circumstances.

Effective Jan. 1, 2016, and for all tax years thereafter.
