HOUSE BILL NO. 256

1

BY REPRESENTATIVE HUNTER

EMPLOYMENT/WAGES-MINIMUM: Provides with respect to the prohibition of any parish or municipality establishing a minimum wage rate

AN ACT

2 To amend and reenact R.S. 23:642, relative to the prohibition of local minimum wage and 3 employee benefits policy; to delete the prohibition of a local governmental 4 subdivision to establish a minimum wage; and to provide for related matters. 5 Be it enacted by the Legislature of Louisiana: 6 Section 1. R.S. 23:642 is hereby amended and reenacted to read as follows: 7 §642. Setting minimum wage or employee benefits; prohibited 8 A.(1) The Legislature of Louisiana finds that economic stability and growth 9 are among the most important factors affecting the general welfare of the people of this state and are, therefore, among its own most important responsibilities. 10 11 Economic stability and growth contribute to the standard of living enjoyed by 12 citizens as employment and income are both dependent on the ability and willingness 13 of businesses to operate in the state. 14 (2) The legislature further finds that wages and employee benefits comprise 15 the most a significant expense of operating a business. It also recognizes that neither 16 potential employees nor business patrons are likely to restrict themselves to 17 employment opportunities or goods and services providers in any particular parish 18 or municipality. Consequently, local variation in legally required minimum wage-19 rates or mandatory, minimum number of vacation or sick leave days would threaten 20 many businesses with a loss of employees to areas which require a higher minimum

wage rate and many other businesses with the loss of patrons to areas which allow for a lower wage rate and more or less vacation or sick leave days. The net effect of this situation would be detrimental to the business environment of the state and to the citizens, businesses, and governments of the various local jurisdictions as well as the local labor market.

(3) The legislature concludes from these findings that, in order for a business to remain competitive and yet to attract and retain the highest possible caliber of employees, and thereby to remain sound, an enterprise must work in a uniform environment with respect to minimum wage rates and mandatory, minimum number of vacation or sick leave days. The net impact of local variation in mandated wages and mandatory, minimum number of vacation or sick leave days would be economic instability and decline and a decrease in the standard of living for the citizens of the state. Consequently, decisions regarding minimum wage and employee benefit policy must be made by the state so that consistency in the wage market is preserved.

B. Therefore, pursuant to the police powers ultimately reserved to the state by Article VI, Section 9 of the Constitution of Louisiana, no local governmental subdivision shall establish a mandatory, minimum number of vacation or sick leave days, whether paid or unpaid, or a minimum wage rate which a private employer would be required to pay or grant employees.

2016 Regular Session

Hunter

Abstract: Removes the prohibition against local governmental entities from setting a local minimum wage rate.

<u>Present law</u> provides that economic stability and growth are among the most important factors affecting the general welfare of the state's people and that local variation in legally required minimum wage rates and local mandates on vacation or sick leave days would be detrimental to the economic stability of the state.

<u>Present law</u> further provides that decisions regarding minimum wage and employee benefits policy must be made by the state if consistency in the wage market is to be preserved.
